Light Heart LLC

Safety Data Sheet

Cleansing Lash Primer

Revision date: November 2026

⚠ **For professional use only. This product must be handled by trained beauty professionals in accordance with all local licensing and safety regulations.**

Section 1 — Identification

Product name	Cleansing Lash Primer
Recommended use	Eyelash cleansing primer
Supplier	Light Heart LLC
Email	help@lightheartlash.com

Section 2 — Hazard identification

GHS hazard statement: May cause mild skin irritation

Pictograms: None

Signal word: Not applicable

Precautionary statements:

- P301+P304+P312 — If swallowed or inhaled: call a poison center or doctor if you feel unwell
- P302+P352 — If on skin: wash with plenty of water
- P305+P351+P338 — If in eyes: rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing
- P233 — Keep container tightly closed
- P402 — Store in a dry place
- P410 — Protect from sunlight
- P411 — Store at temperatures not exceeding 25°C (77°F)

Section 3 — Composition / information on ingredients

Ingredients: Water, Alcohol, Rosa Damascena (Rose) Flower Water, Propanediol, Glycerin, Phenoxyethanol, Ethylhexylglycerin, Hydrolyzed Keratin, Panthenol, Sodium Phytate.

Section 4 — First-aid measures

Ingestion: Do not induce vomiting. Get medical advice immediately.

Inhalation: Not applicable.

Skin contact: If irritation occurs, wash with soap and water. If signs or symptoms develop, get medical attention.

Eye contact: Immediately rinse eyes with plenty of water. Remove any contact lenses. If tissue damage or persistent irritation is apparent, get medical advice immediately.

Section 5 — Fire-fighting measures

Extinguishing media: CO2, dry chemical, chemical foam, water spray or mist (not water jet).

Special exposure hazards: Not determined.

Special protective equipment: Self-contained breathing apparatus or supplied-air breathing apparatus may be required.

Section 6 — Accidental release measures

Personal precautions: Not applicable.

Environmental precautions: No specific precautions advised.

Method of cleaning: Absorb the material onto porous, inert material, such as sand or earth, and dispose of in accordance with local regulations.

Section 7 — Handling and storage

Storage conditions: Store indoors at a constant temperature, preferably around 15–30°C (59–86°F). Keep away from heat, direct sunlight, and oxidizing agents.

General handling precautions: Handle in accordance with good occupational hygiene and safety practice.

- Avoid direct contact with eyes
- Do not ingest the material

Section 8 — Exposure controls / personal protection

Exposure controls: Not applicable.

Personal protection: If excessive exposure is anticipated, the following protection measures should be taken:

- Hand protection: Disposable or rubber gloves
- Skin protection: Overalls with arm protection

Section 9 — Physical and chemical properties

Property	Value
Appearance	Clear, water-thin liquid
Color	Colorless
Odor	Floral, alcoholic
pH	7.00–8.00 (target 7.50)
Vapor pressure	Not determined
Vapor density	Not applicable
Specific gravity	Not determined
Melting point	Not applicable
Boiling point	Not determined
Solubility in water	Water soluble
Flash point	Not determined
Explosive properties	Non-explosive
Oxidizing properties	Non-oxidizer
Partition coefficient	Not determined
Refractive index	Not determined
Viscosity	Not determined

Section 10 — Stability and reactivity

Stability: Stable under normal conditions.

Materials and conditions to avoid: Strong oxidizing materials. Do not freeze. Avoid overheating.

Section 11 — Toxicological information

Not determined.

Section 12 — Ecological information

Not available.

Section 13 — Disposal considerations

Dispose of in accordance with local authority regulations.

Section 14 — Transport information

UN number: Not classified under UN Transport Regulations.

Section 15 — Regulatory information

Non-hazardous.

Section 16 — Other information

This Safety Data Sheet has been prepared to help users perform their own assessment of the requirements for safe handling. The information is correct to the best of our knowledge at the date of publication. It is the responsibility of any intermediate supplier to ensure that the information in this SDS is passed to the end user.
